Specimen : Gastric Lavage

Method : Cartridge Based Nucleic Acid Amplification Test (CBNAAT)

Result : MTBC Detected Low

RIF Resistance : Not Detected

Interpretation : MTBC Detected. The test could not accurately determine if the bacteria are resistant to RIF. Growth based susceptibility testing to first line YB drugs should be performed.

Comments : The Xpert MTB/Rif test is a cartridge-based fully automated NAAT (nucleic acid amplification test) for Tuberculosis(TB) case detection and rifampicin resistance testing.

Please Correlate Clinically.
